

The FAA Safety Team presents:

Hope Is Not a Strategy at HAI HELI-EXPO 2016

In this session, we will examine how humans (pilots) make decisions and the process by which we evaluate our decisions to determine the “goodness” of the decision. We will discuss: brain function and cognition; how the “frame” in which we receive information impacts our use of the information; rational versus irrational decision-making processes (emotional brain versus rational brain); and problem analysis versus decision making.

This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2016. These sessions are FREE to all HELI-EXPO 2016 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2016 and receive a certificate of recognition for completing the 2016 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps: Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.

At the conclusion of each session, receive an official token from the room monitor or presenter. Once you have earned at least six tokens, drop by the HAI Safety Committee Booth on the show floor, turn in your chips to a committee member,
